ABOUT US

Balaji Storage Batteries Ltd (est. 2008), part of the Balaji Group, is a leading energy storage manufacturer specializing in high-performance batteries and lead-based products. Our advanced facility produces pure lead, selenium lead alloy, and lead sub-oxide, catering to automotive, inverter, solar, and industrial applications. Committed to innovation and quality, we offer durable solutions including inverter batteries (150-220 AH), automotive batteries (40-100 AH), e-rickshaw batteries (100-150 AH), and solar power systems. Certified with ISO 9001:2015, 45001:2018, and 14001:2015, we prioritize safety, sustainability, and global standards. Our mission is to deliver eco-friendly, efficient energy storage for residential, commercial, and industrial needs worldwide.
